7 November 1983

MEMORANDUM FOR: Director of Central Intelligence
Deputy Director of Central Intelligence

FROM: John Horton
National Intelligence Officer for Latin America

SUBJECT: Talking Points for PFIAB Questions on Grenada

The attached is for your meeting with PFIAB on Grenada.

Note that toward the end I mention a study. This is what I brought up in conversation with you the other day: a study by the DDI's Product Evaluation Staff (PES) of the intelligence process as it concerned Grenada. If you do commission such a study, then that reference is fitting. I think the study should be for lessons learned, not for "intelligence failures."

Even though PES works intramurally, I think we should somehow look at what DoD had on the shelf. Should it not have been clear that Grenada was of particular interest to us even though none of us could have predicted how it would evolve?

John Horton
